Fremont Insurance wins Applied Systems interface partner award

Kansas City, Mo.—October 15, 2009—Fremont Insurance Company today received the 2009 Interface Partner Award from insurance technology company Applied Systems. The award recognizes Fremont’s achievements in agency-carrier communication.

Applied Systems acknowledged Fremont’s leadership and innovations, citing the carrier’s commitment to providing agents with download, real-time inquiry and real-time rating.

“While we appreciate the recognition the award brings, without participation by our agency partners and their adoption of real time, the award would not carry the importance it does,” said Dave Mangin, executive vice president and CIO. “Expect more of the same in the coming year.”

Fremont Insurance received the partnership award during a ceremony in Kansas City, Missouri, at 2009 TENCon, the Technology, Education & Networking Conference hosted by ASCnet, the Applied Systems Client Network.

“The continued commitment of Fremont and other forward-thinking carriers keeps our industry advancing,” said Doug Johnston, vice president, Partner Relations & Product Innovations at Applied Systems. “We recognize the company’s dedication to interface partnerships with its agencies, and for overall benefit to the industry.”

About Fremont Insurance Company

Fremont Insurance is a Michigan exclusive insurance carrier based in Fremont, Michigan which is 45 minutes North of Grand Rapids, Michigan. The company was established in 1876 and is currently represented by 173 agencies across Michigan. It continues to be recognized as one of the fastest growing insurance carriers in the state. The company associates its success to first its independent agency force and secondly to a full line of Commercial, Personal, Farm and Marine products which provide niche coverages. www.fmic.com

Applied Systems Inc. develops, sells and supports insurance agency and broker management systems and provides services for accounting, customer, policy, claims management, and all related agent and broker functions. More than 130,000 users in 11,000 agencies of every size and complexity level use Applied Systems solutions built around core systems Epic, TAM, Vision and DORIS. In addition, the company leads the industry in agency-carrier real-time and batch communication solutions. www.appliedsystems.com
